GCSE GEOGRAPHY

Paper 3 Geographical Applications

Time allowed: 1 hour

Materials

For this paper you must have:

- the Pre-release resources booklet (enclosed)
- the OS key insert (enclosed)
- a pencil
- a rubber
- a ruler.

You may use a calculator.

Instructions

- Use black ink or black ball-point pen.
- Fill in the boxes at the top of this page.
- Answer **all** questions.
- You must answer the questions in the spaces provided. Do not write outside the box around each page or on blank pages.
- If you need additional extra space for your answer(s), use the lined pages at the end of this book. Write the question number against your answer(s).
- Do all rough work in this book. Cross through any work you do not want to be marked.

Information

- The marks for questions are shown in brackets.
- The total number of marks available for this paper is 56.
- Spelling, punctuation, grammar and specialist terminology will be assessed in Questions **01.5** and **03**.

For the multiple-choice questions, shade the circle next to the correct answer.

CORRECT METHOD

WRONG METHODS

If you want to change your answer you must cross out your original answer as shown.

If you wish to return to an answer previously crossed out, ring the answer you now wish to select as shown.

Section A Issue evaluation

Answer **all** questions in this section.

Study **Figure 1** in the resources booklet, 'Managing waste in the UK'.

0 1 . 1 What percentage of waste in the UK was household waste in 2018?

Shade **one** circle only.

[1 mark]

- A** 8%
- B** 12%
- C** 19%
- D** 61%

0 1 . 2 Describe the trend in the rate of recycling in England between 2000–2019. **[2 marks]**

0 1 . 3 Suggest why the government’s aim to recycle 65% of waste by 2035 may not be met. **[4 marks]**

Extra space _____

0 1 . 4 Give **one** reason why managing waste is a global issue. **[1 mark]**

Question 1 continues on the next page

Turn over ►

0 1 . 5

Waste should be seen as 'a resource opportunity rather than a problem'.

Do you agree? Explain your answer.

Section B Fieldwork

Answer **all** questions in this section.

A student wanted to investigate the impact of tourism on their local town.

Study **Figure 4**, which shows the results of the student's primary data collection.

Figure 4Data collection carried out in the High StreetWednesday 10th July 2019Land use survey (number)

Supermarkets	3
Clothes shops	18
Souvenir shops	11
Cafés/restaurants	14
Hotels/bed and breakfast	4
Newsagents/general stores	10
Services (hairdressers/estate agents)	6
Financial services	3
Others	15

Environmental quality survey

	-2	-1	0	+1	+2	
Lots of litter	✓					No litter
Crowded		✓				Few people
Noisy		✓				Quiet
Lots of traffic	✓					Little traffic
Unattractive			✓			Attractive

Pedestrian count (5 minutes) in the High Street

Eastern end	31
Middle	186
Western end	93

Wednesday 23rd January 2019Pedestrian count (5 minutes) in the High Street

Eastern end	11
Middle	27
Western end	38

0 4 . 1 Which of the following methods would be an appropriate way of presenting the land use survey data?

Shade **one** circle only.

[1 mark]

A Line graph

B Scattergraph

C Pie chart

D Histogram

0 4 . 2 What was the total environmental quality score?

[1 mark]

0 4 . 3 Using the data from **Figure 4**, state **two** conclusions that the student might draw about the impact of tourism.

[2 marks]

1 _____

2 _____

0 4 . 4 Suggest **two** ways that the primary data collection methods could be adapted to give more reliable data.

[2 marks]

1 _____

2 _____

Question 4 continues on the next page

Turn over ►

As part of a physical geography enquiry a group of students wanted to test the hypothesis that 'a local beach gets wider from west to east'.

The students measured the width of the beach to the nearest metre at equal points between two groynes (wooden barriers).

Study **Figure 5**, a diagram showing the results of the students' beach survey.

Figure 5

0 4 . 5

Use **Figure 5** to complete the following table, which was used to analyse the students' data.

[3 marks]

Mean	17.6
Mode	
Median	
Range	

0 4 . 6

Which of the **four** measures shown in **Question 04.5** do you feel is most useful for this enquiry?

Give **one** reason for your choice.

[1 mark]

Chosen measure _____

Reason for your choice _____

0 4 . 7

Suggest a conclusion that the students might draw in relation to the original hypothesis.

[2 marks]

Question 4 continues on the next page

Turn over ►

A group of students wanted to compare the residential quality of different areas within a town.

Each area was visited and judged in five categories using a scale of 1–10.

The results are shown in **Figure 6**.

Figure 6

1 Lowest residential quality	→	10 Highest residential quality	Area A	Area B	Area C	Area D
Housing			6	4	7	9
Vandalism			4	5	8	7
Amount of green space			4	7	2	7
Litter			3	4	9	4
Safety			5	6	10	8

0 4 . 8 Which area shown in **Figure 6** has the highest residential quality?

Use the data in **Figure 6** to justify your decision.

[4 marks]

Extra space _____
